SYNOPSIS

Spanning decades from the late 1800s to present day, set in a small town outside NYC, Tuckahoe, NY, a poor Italian immigrant family, the Scalamarris, begin to amass wealth, only to be squeezed by the mafia, and ultimately slaughtered at the hands of Bugsy Siegel. The sole male surviving relative, Vincent Scala, runs away, barely escaping. Tormented by his families brutal slaying, he joins the military and with a reckless, unspoken death wish he unintentionally becomes a war hero. Fast forward to the 1990's, unbeknownst to the great grandsons of the Scalamarris', Chris, Tony and Sal, better known as the Columbus Avenue Boys, find themselves entrenched in organized crime, until coming face-to-face with their family's horrific past. With the help of the FBI's most eager agent, Dominique Tejata, Chris masterfully plans the boys exit from the mob when suddenly everything is once again on the verge of blowing up right before their eyes.

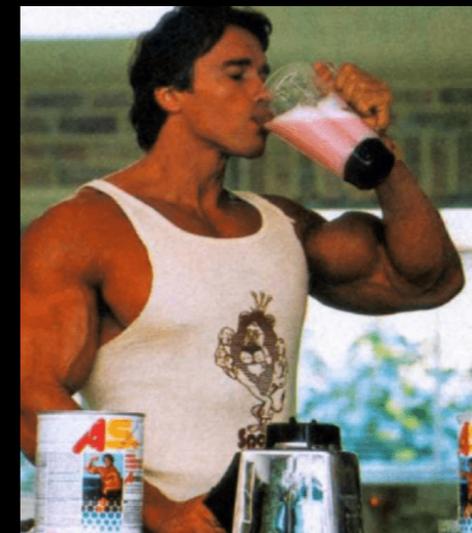

Will the Columbus Avenue Boys continue the vicious cycle only to experience the same horrific fate of their forefathers? Or will their grandfather, Vincent "Pops" Scala, the sole surviving male relative from the massacre, who bridges the past with the present, be able to avenge the Scalamarri name, and free his family once and for all from the deathly grip of the mob?

This epic tale of historical fiction takes us through Prohibition, The Great Depression, WWII, 9/11 right up to the Presidential election of 2016.

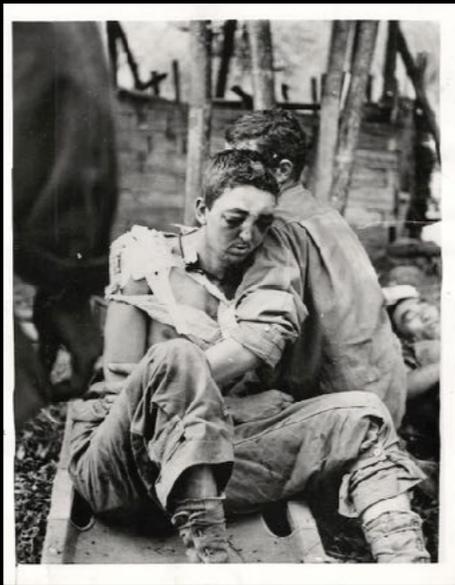

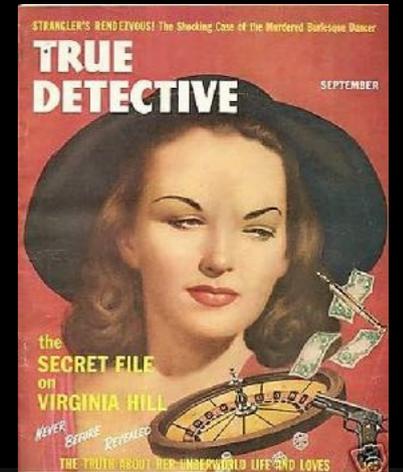

From Pop Warner football as kids, to hitting the gym as teenagers in the 80's, the Columbus Avenue Boys share a bond that is larger than life. Cousins who grew up like brothers, Chris, the Wall Street Tycoon and brains of the three, to Sal the hopeless, romantic mafia-muscle, who loves to cook as much as life itself, and finally to Tony, Sal's counterpart in the mob but nothing more than a big lovable softy.

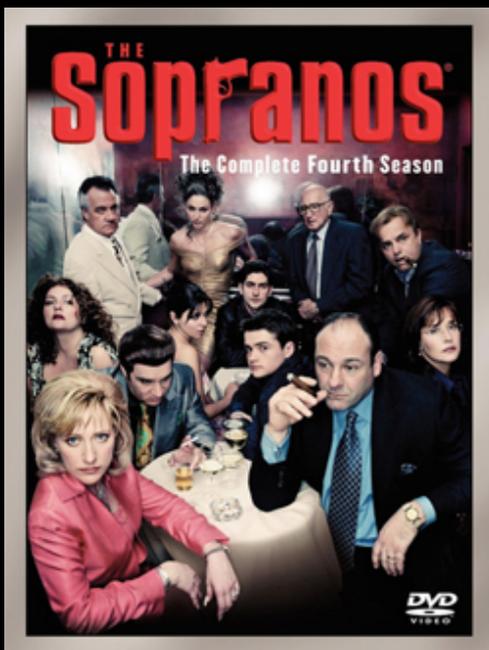

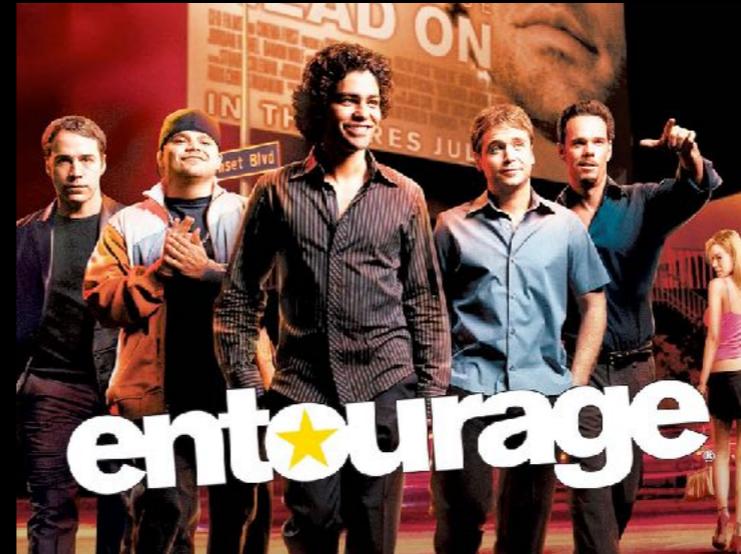

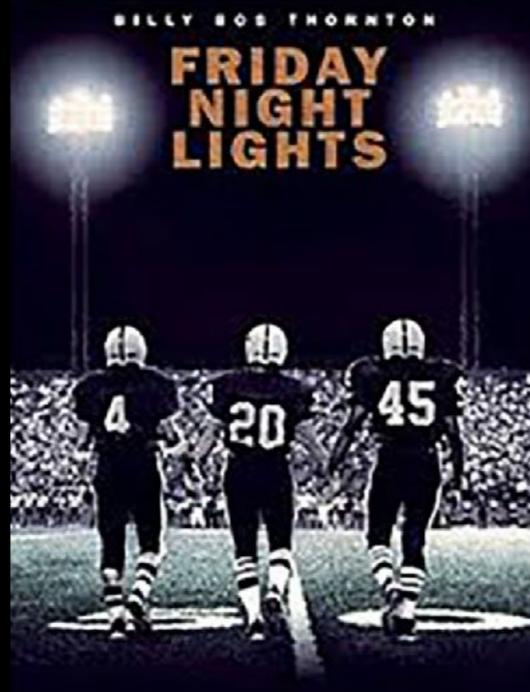

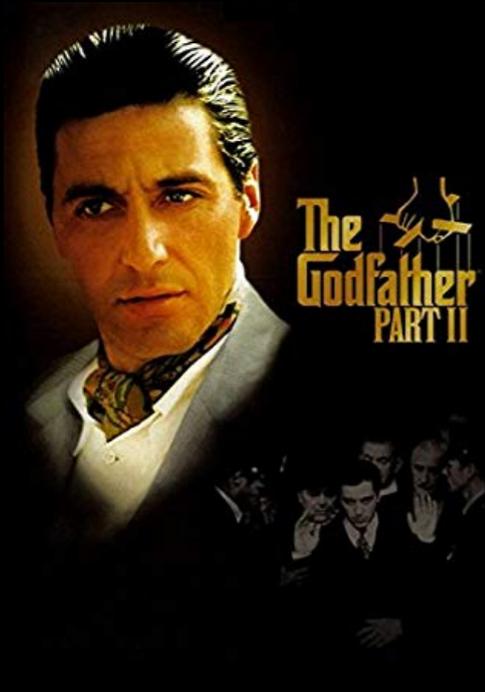

"A family is something larger than who you can hold in your arms. It has a past and a future. Protecting that isn't a choice, it's instinct."
~Vincent 'Pops' Scala

"The script has received positive coverage in house and peaked our interest. We are definitely interested in North American distribution rights..."

~Stan Wertlieb ~ Grindstone Entertainment Group

The writing is fantastic, and I thought Maria and Kevin did a phenomenal job writing authentic dialogue and wrangling what I'm sure is a massive, sprawling book."

~ Bryan Stankus- Fox Networks Group-Jackal

"Columbus Avenue Boys is a fascinating story of Italian immigrants, their families, and their connection to crime and how they escaped its hold on them. Several things attracted me. The history and how these people fit into it held my interest throughout the book. And then the individual stories also were well done. It is called 'historical fiction,' but one can't help wondering how much is true because of the characters that were taken out of real life and added to the novel. This interesting book gives the reader a chance to be entertained while learning things of historical interest."
